### The Avengers: Infinity War

Recently, I watched the film named 'The Avengers: Infinity War'. I liked it really much because I am fond of superheroes and all connected with comics, and this film is based on it. In addition, there are a lot of action scenes and, the most important, scenes with my favorite actress.

She plays a character who is called Scarlett Witch. I love her not only as a character but as an actress in general. I would like to meet her one day because I want to ask some questions about her profession and some future films, or get an autograph.

I would like to recommend you this film even if you do not know a lot about comics or superheroes. Even for an average viewer it is easy to understand characters and what is happening on the screen.

### American Horror Story

I would like to give a review on a TV show called American Horror Story. This is an American anthology TV series created by Ryan Murphy and Brad Falchuk. Each season follows a different set of characters and a different storyline. Only four actors appear everytime in each season. I like this show because it has an interesting plot and some elements were inspired by true events.

There are a few actors who I want to meet but most of all I would like to meet Emma Roberts. I watched several films with her and I think she is a good actress. Also, she has a bookclub called Belletrist.

I recommend my classmates to watch this show because it is a good way to spend time, especially if you like horror films.

## Iron Man

This is one of my favourite films because it showed a story of my favourite superhero. The main character in this film is Tony Stark who is an inventor and an owner of his company. This film showed becoming of Tony from a person who thinks only about himself to the person who will become one of the famous and kind superheroes of his time.

The main character in the film is starred by Robert Downey Jr who is one of my favourite actors. I like him for his charisma, style of play and how he fought his drug addict and became the highest paid actor in Hollywood.

I would recommend to watch this film because this is one of the most successful superhero films in the history. The film includes a lot of amazing CGI effects and good acting.

Charlie and the Chocolate Factory.

30 It is known that people sometimes have a strong desire to relax and spend time on their own. Due to this fact I would like to recommend you a film called "Charlie and the Chocolate Factory".

28 Actually, I admire this film because it shows spectators how to understand some important human things such as relationships between a family, friendship and everything connected with that.

26 To be honest, it is my big dream to meet Johnny Depp and luckily he is the male lead in the film I am talking about. His ability to make people arouse <sup>real</sup> emotions in people's mind and I want him to demonstrate it in real life.

24 I advise you to watch this film because it will make you to revalue some things and become kinder to people around you.

To sum up, you may like another genre of films, but you will not feel pity about watching it.

### "Harry Potter and the Goblet of Fire"

Although I have seen a plenty of new wonderful blockbusters, "Harry Potter and the Goblet of Fire", which came out long time ago, is still one of my favourite films.

Firstly, I like it for its magical atmosphere and interesting situations, which were come through by Harry and his friends. Secondly, I like jokes and funny situations which were balanced with depressive end of this film. Moreover, I was fascinated with the play of actors when I saw film for the first time.

Most of all I'd like to meet Emma Watson, who played Hermione Granger. In my opinion her character is the most interesting in this film. In addition, she ~~has~~ lives an active lifestyle nowadays.

As I think, my classmates should watch "Harry Potter and the Goblet of Fire" because books about Harry Potter are classical in literature and this film is very popular too.
